Thanks Carol really appreciate that.

Can you please send me that possible location for a consolidated treatment system that you mention this morning I forgot the name. don't do anymore than one or two sentences on why that's a good idea and if we can follow up with you or some other contacts, that would be great. Thanks again, I really appreciate you being there and your time.

Subject: Some plug

Hi Carol,

As you can imagine, I have been following the news reports very closely. Of course, I have a lot of questions and a sort of "I thought I told you" attitude. But seriously, if there is anything I can do to help, please let me know. Katie W-D and I were just talking about consequences of mine plugging on the day that the incident at Gold King occurred. Psychic.

Best,

Kirk
